FOREWORD

Years ago, when the late Thomas L. Elder was actively engaged in the coin business in New York City, the Collector was frequently given the opportunity to enjoy a typical Elder Sale. These Sales included coins in all price categories calculated to appeal to those with fat purses and thin, from the eager youth to the often equally eager senior Collector. In surveying the material offered here we feel that we can, with considerable justification, describe this Sale as one of the old fashioned Elder type.

The opening session is largely devoted to **Consignment New Jersey,** made up of a greater variety of interesting pieces than we have had the opportunity to handle in some years. Of necessity many of the coins have had to be grouped in lots. It is unusual, however, to find such a wide range of interesting pieces from all parts of the world. It is equally unusual to encounter coins of so many different periods from **Ancient to Post World War II issues,** all within the confines of one collection. In this connection, we can say that the Consignor is a fine Collector of the old fashioned kind who devoted his leisure hours for almost forty years to the enjoyment of coins. As a careful consideration of his pieces will show, he was not overly concerned with price. The small obscure coin was of just as much interest to him as the more important piece.

Undoubtedly the Ancient coins make up one of the most important sections of Consignment New Jersey. It may be a number of years before such a fine group of **Roman Republican and Imperial Denarii** are available to the Collector. The silver is nicely backstopped by an interesting group of **Ancient Greek, Roman and Byzantine Gold Coins** to which we would particularly direct the reader's attention. In the same way, the **European** and **Oriental** sections contain some unusual **Gold,** particularly from the **Low Countries** and **Central Europe.** There are also two other small consignments, one made up of some **good Ancients,** and the other comprising a nice run of **Rumanian Gold Coins.**

The Second Session is almost entirely devoted to **Consignment Canada,** the first part of which we were privileged to offer in our Sale of last May. The bulk of this consignment comprises an unusually long run of **United States Gold Coins** in all denominations, including some attractive **early Eagles and Half Eagles.** The large number of **St. Gaudens' High Relief Double Eagles** was the cause of considerable astonishment to the Cataloguer when he first examined the Collection. We do not recollect any recent instance of so many of these pieces, felt by many to be the most attractive Gold coins issued by the United States, ever being made available at one time

The Foreign Gold in this consignment includes some rare **South African coins,** among which are a Gem **Burgers' Pond,** as well as examples of the rare **Veld Ponds** issued during the Boer War that are seldom seen these days. There is a 1923, **South African Proof Set,** comprising all denominations from the Gold Sovereign to the ¼ Penny. There are also no less than two of the rare **Canadian 1914 Five Dollar gold pieces,** as well as other dates and denominations. The Sale is brought to a close with two very interesting **Proof 1914 and 1915 Half Dollars.**
